

QWidget

StereoSettingsWidget

StereoSettingsWidget

```
classDiagram
    class QWidget
    class StereoSettingsWidget
    QWidget <|-- StereoSettingsWidget
```

The diagram illustrates a class hierarchy. At the top, there are two boxes: 'QWidget' on the left and 'StereoSettingsWidget' on the right. Below these, centered, is a third box labeled 'StereoSettingsWidget'. A horizontal line connects the bottom of the 'QWidget' box to the bottom of the 'StereoSettingsWidget' box. From the center of this horizontal line, a vertical line extends downwards to the top of the bottom 'StereoSettingsWidget' box. This vertical line then splits into two arrows: one pointing upwards to the bottom of the 'QWidget' box and another pointing upwards to the bottom of the 'StereoSettingsWidget' box on the right, indicating that the bottom 'StereoSettingsWidget' class inherits from both 'QWidget' and the 'StereoSettingsWidget' class above it.
