

QDialog

RendererObjectWidget

RendererObjectWidget

```
graph BT; RO1[RendererObjectWidget] --> QDialog; RO1 --> RO2[RendererObjectWidget];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'RendererObjectWidget'. Two arrows originate from the top of this box: one points to a box labeled 'QDialog' on the left, and the other points to a box labeled 'RendererObjectWidget' on the right. This indicates that 'QDialog' and the right 'RendererObjectWidget' both inherit from the bottom 'RendererObjectWidget'.
